The Joint Resolution endorsing the National Administration was tabled 41 to 25.

The Swamp Land Bill was killed, 31 to 37, and the Rock River Canal Bill, 43 to 23. (Good!)

In the Evening Session, the Air Line R. R. (Milwaukes & Fond du Lac) bill, from Senate, passed by a vote of 43 to 21.

The Assembly Liquor Bill came up in the file, and Mr. Knowiton offered a substitute.—
The House was in a confused struggle of three quarters of an hour, when the substitute was withdrawn and the bill allowed to drop.

The Land-Firstes Caught in a Trap !

There is a good Providence over all! The Land Pinaderers have furnished the club to break Washington, it occurred to them, in their folly, that a Land Grant Memorial from our State Legislature might help their sinking cause. Secretly mustering, therefore, all their forces, at the very heel of the Session; Combining all sorts of influ- a fight as the ten minute restriction, the rules, cuces, and resorting to a disreputable trick; they and the majority, might allow. sprung upon the House on Wednesday a Menuerial asking for "Lands for the Landless," and also lands for Rail Roads. This Memorial has passed, but in such shape and with such restricniens, that if our Senators and Representatives obey the instructions thus sent, no Land Grant

Our Legislature, by this Memorial, says in substance: "Grant no land; to the Valley Road -Company, nor for the Valley Road route. If "you give at all, give to the State, to apply as the "State thinks best." Thus, in fact, giving the lie to the claims and pretensions of the Valley Road Company, as set forth in their memorial and arguments before Congress. But, best of all, the Assembly, by a vote of year 72, mays 2-substantially unanimous-re-affirmed the Proviso, stoen or suppressed in the memorial of 1859, requiring that all lands so granted to the Statoshall be kept in market and sold to actual settlers only, at the minimum price and in limited quantities. This provise takes out the sting-neutralizes any latent poison in the body of the enactment. More then this, it is an emphatic and triumphant vindiention of Gov. Farment's policy in relation to the Public Lands. It confirms and justifies all the: Mr. Lerouse said and that the Milwaukee delegation at Washington urged, against the Valley Road Grant. It is a repudiation, in fact, of that bill; an approval of its rejection by the House of Representatives, and an endorsement of Gov. FARWELL's letter, exposing the infamous frame practiced in the Memorial of '52.

The Memorial, in its present shape, unties the hands of our Benators, who are both, as we have reason to know, opposed in principle to these Land Grabs. They are now instructed to go against all such grants, unless made directly to the State, and the lands to be kept in market and sold to actual settlers only, at \$1,25 per acre.-Congress is not likely to pass any bill in that chape, and none other can receive the support of bur Senators and Representatives, unless they dis-Stey the Legislative instructions, and disregard the sentiments of the State. The effect, we trust and believe will be to defeat any and all Land Grants, whother made directly or indirectly, to Private Corporations, Speculators and Monopolists; or, if any such bills do pass, they will be so guarded as to cheat the Land-Pirates of their look to this matter, if they would save their heri tage from the hands of the spoilers!

The Assembly on Thursday did three good things. It tabled the resolutions cadorsing Plance & Co, it rejected the Swamp Land bill and it andefinitely postponed the Rock River Canal bill.

Dull Times at Washington -The Star says, Washington is just now without a single lion, not a man of peculiar note from abroad being thore. Proposed land donations to aid in the construction of railroads, brought a flock of ex-members to Washington, who have disappeared since the last project of that kind was so emphatically disposed of by the House. Buch gentlemen are no longer to be daily seen occupying seats of members in the House hall, as lately, looking far more earnestly interested in the current proceedings than three-fourths of those charged by the people with the duty of participating in them.

The passage of the memorial in favor of Land The passage of the memorial in latter of Latter frants to Railways by the Legislature, will be regarded as the first response to the meeting in this city. We do not suppose that this memorial would have been brought up in the Legislature had it not from for the long heralded meeting in this city.—Wisconsin of Federalay.

It is very clear that the less Law business the State does at these rates, the better for time Tex-payers.

EDITORIAL CORRESPONDENCE OF THE SENTINEL Log-Rolling of a Land Grant Memorial through the Assembly.

Madison, March 29th. The Senate committee on Figures has reported

their own beads. Desperate after their defeat at very gravely moved to substitute for the memori-

so that members might see it. Now, there must be no delay, no reference. There was brars enough to carry the memorial through.

Mr. Barlerr followed, also in favor of the ref-

erence. In the early part of the session he had introduced a memorial in favor of the Homestead

erence. In the early part of the session he had introduced a memorial in favor of the Homestead Bill, but had been unable to get a report up to this time, tha committee saying that they were awaiting further information. Then, delay was necessary; now it could not he had. He was in favor of the Homestead Bill, and wished to vote for an expression in its favor. The people of the state were opposed to those grants to corporations, and they never rejoiced more than when the state rid itself of the Fox River Improvement Grant, by handing it over to a private company.

Mr. Gaar spoke in favor of the reference. He too, had wished for a report on the Homestead Resolutions. He had called for a report on a busicess to cult for a report on so short notice, although the resolutions had been in the homes for 5 or 6 weeks. Gentlemen had beasted long ago that they could put a land grant memorial through the Assembly, but they had not dared to try it before this time, when it was too late for the people to come with remonstrances. The pill was a bitter one to swallow, and it had been sugared over with a Homestead coating, so as to make it ge down. The phentems of the Bock River Canal grant, and the Fox River Improvement grant were here flitting about the Hail, (and the committee on the Judiciary had yesterday hrought this last into notice again;) and is this House ready to ask for more grants?

Mr. Hull again urged that a reference would be death to the memorial.

Religious Services will be held to-morrow, as follows

The case of the state vs. William Ball, for

sault and battery upon Jacobas Van Ells, on the 20th March, was tried and the defendant found not guity. The complainant in this case has put the Co. to an enormous expense for suits of this kind, on all which he appears in the end either to have been the aggressor, or else to, have been so drunk at the time as not to recoilect what had taken place; and never, in any one instance have his assertions been corroborated by either witnesses. In this case he was shown to be drunk and to have been the aggressor. The fees and costs on the case will amount to upwards of ten dollars and the county will have to pay it. A long time ago, there was an execution issued from this court againt the body of this complainant, which has not been returned. If that was now collected it would beln to balance the account with the county, and and might tend to show the complainant, that he must not make his complaining oaths with impunity; and put innocent men to the trouble and expense of procuring lawyers and witnesses to defend themselves, without the help and pay of the state, when the state furnishes pay for his witnesses.

Dull Times at Washington - The Star says, Weshington is just now without a single lion, not a man of peculiar note from abroad being there. Proposed land donations to aid in the construction of callroads, brought a flock of ex-members to Washington, who have disappeared since the aget project of that kind was so emphasically hisposed of by the House. Such gentlemen are no longer to be delly seen occupying sents of members in the House hall, as lately, looking far more earnestly interested in the current proceedtogs than three-fourths of those charged by the 140 pie with the duty of participating in them.

The pressure of the monorial in larger of Land Grands to Rullings by the Legislature, will be regarded as the first response to the meeting in the city. We do not suppose that this meraously would have been brought up in the Legislature had it not been for the long heralded meeting in this city. Wisconsin of Testerday.

In the early part of the seasion he had introduced a memorial in favor of the Homestead Bill, but had been unable to get a report up to this time, the committee saying that they were awaiting further information. Then, delay was necessary; now it could not be had. He was in favor of the Homestead Bill, and wished to vote for a corresponding its favor. The people of the

intended to be introduced. The first one was too plain in its terms, as to asking for aid to particular roads; as this one was got up making the request general, the fitends of the other one beasting that they would take the risk of getting Congress to make the grant for their particular roads. Why had this menorial been kept back so that he expression could be had from the people? He saw through the gard, he could see through a skimmer when it had as many holes as this has. Mr. Hat spoke against the reference. Nature had not given him as honest a face as Mr. Hadley's, and he could not speak with the pathos used by him. The gentleman knows that if the

other roads gets grant, it would be an injury to Milwaukee, and of course Milwaukee would oppose all others. He believed Mr. Haddey was sincere, and really desired to kill the memorial. The reference had murder and death in it, and the inspects all others had murder and death in it, and the inspects involved in the memorial. The constitution provided that no two subjects shall be embraced in one bill, and this provision must apply also to memorials. This thing was not asked for by the people, but by a set of men who had kept open shop at Washington all winter and naving been defeated had given an order on this regislature for such an expression of opinion as having been denated an expression of opinion as the legislature for such an expression of opinion as would revice their cause. The memorial had at first asked for old to estimi roads, but they could not find men enough to roll those logs, and so they struck out those roads. He saw this with his own eyes. This logrolling memorial had now the same and members also have a resident to the same and members also have a resident to the same and members also have a resident to the same and members also have a resident to the same and members also have a resident to the same and members also have a resident to the same and members also have a resident to the same and t been got up, and members had been appealed to not to vote against the interests of the state.— This memorial was really asked for, in order to bein one road which had not strength enough, or sufficient virtue in its management, to help itself

measurely most it could not be laid. He was in favor of the Homestead Bill, and wished to vote for an expression in its favor. The people of the state were opposed to those grants to corporations, and they never rejoiced more than when the state rid itself of the Fox River Improvement Grant, by handing it over to a private company.

Mr. Gax spoke in favor of the reference. He too had wished for a report on a week's notice, and was answered that he had no business to call for a report on a short notice, although the resolutions had been in the house for 5 or 6 weeks. Gentlepsen had beated long ago that they could not a land grant memorial though the Assembly, but they had not dared to try lie before this time, when it was too late for the paople to come with remonstrances. The pill was a bitter one to swallow, and it had been suggered over with a Homestead coating, so as to make it go down. The plantons of the Rock River Canal grant, and the Fox River Improvement grant were here flittling about the Hall, (and the committee on the Judiciary had postarday brought this last time notice again;) and is his House ready to ask for more grants?

Mr. Hapter would like explanation as to one point. This memorial was not the one originally intended to be introduced. The first one was too plain in its terms, as to asking for aid to particular roads; so this one was got up making the request the grant for their particular roads; so this memorial been kept back so that possible the grant for their particular roads. Why had this memorial been kept back so that possible the grant for their particular roads. Why had this memorial been kept back so that possible the grant tank it was said that the Chair by 43 to 44—the with a Hall corporation of the possible to vote with the fact of the first of getting the resolution of the memorial was not the one originally violated at their back and not. But it was said that if Congress gives the land, we must take it! Whose lands are these? They are our own already, lying open to the sattler, fertile and beautiful, inviting the configuration of the people? He saw through the game, he could see through a skimmer when it had so many holes as this has.

Mr. Halls spoke against the reference. Nature had not given him as housest a face as Mr. Hadely's, and he could not speak with the pathes used by him. The gentlemsu knows that if the other roads gets grant, it would be an injury to make they settler—to stilling fields and happy homes. The House voted, and refused, 42 to 30—(not three-fiths.)

Mr. Orrow proceeded for a few moments in a strain of elequence which I cannot follow in this report. Such appeals and arguments must have prevailed, if the bargain had not been firmly made beforchand.

A motion, by Mr. Webster, was made and lost. Mr. Gart spoke elequently for a few moments against the grants and in favor of delay.

Mr. Less moved the previous question. A call of the House followed. The Sergeant-at-Arms reporting, Mr. Orrow arose to debate the motion to call the previous question. Mr. Hoan (Speaker) decided that this was out of order, and on an appeal, the Speaker was sustained.

The previous question was called, 51 to 31.

The question now being—"Shall the main question be now put?"—Mr. Orton wished to debate it, but was again decided out of order, and, on an appeal the chair was sustained. The main question was ordered.

The vote on postponing the motion "to commit for three days," stood 27 to 47—Jost.

The House refused to commit to the committee on Roads and Bridges, and clast to the relect committee.

The Land-Pirates Caught in a Trap !

There is a good Providence over all! The Land Planderers have furnished the club to break their own heads. Desperate after their defeat at Mashington, it occurred to them, in their folly, that a Land Grant Memorial from our State Legislaute might help their sinking cause. Secrety mustering, therefore, all their forces, at the very heel of the Session; combining all sorts of influences, and resorting to a disreputable trick; they spring upon the House on Wednesday a Memorial asking for "Lands for the Landless," and lee hoofs for fiail Roads. This Memorial has Tiesd, but in such shape and with such restric four, that if our Senstors and Representative over the instructions thus sent, no Lund Gran can pass Congress.

Our Legislature, by this Memorial, says in sub-stance: "Grant no land; to the Valley Road "Company, nor for the Valley Road route. If won give at all, give to the State, to apply as the State thinks best." Thus, in fact, giving the in to the claims and pretensions of the Valley Hood Company, as see forth in their memorial and arguments before Congress. But, best of all, the Assembly, by a vote of year 72, nays 2-substantially superimous-ore-effirmed the Proviso, stoer or suppressed in the memorial of 1852, requiring that all leads so granted to the Stateshall be kept to market and sold to actual settlers only, at the windows order and in limited quantities.— This provise takes out the sting-neutralizes any intent posson in the body of the enactment. More gran this, it is an emphatic and triumphant vindicalled of Gov. Farwers's policy in relation to the Public Lands. It confirms and justifies all test Mr. Lescure said and that the Milwaukee delegation at Washington arged, against the Velley Road Grant. It is a repudiation, in fact, of that bill ; an approval of its rejection by the House of Representatives, and an endorsement of Gov.

Dull Times at Washington - The Star says, Si seilington is just now without a single lion, not a man of peculiar note from abroad being there. Proposed land dougtions to sid in the construction of milecade, brought a flock of ex-members to Washington, who have disappeared since the last project of that kind was so emphatically disposed of by the House. Such gentlemen are no longer to be delly seen occupying sents of members in the House hall, as lately, looking far snore expansive interested in the cutrent proceedruge than three-fourths of those charged by the resple with the duty of participating in them.

The passage of the memorial in favor of Land Grants to Kailways by the Legislature, will be Frank lo Hallordon by the Legislature, will be regarded as the first response to the meeting in this city. We do not suppose that this memorial would have been brought up in the Legislature had it not been for the long heralded meeting in this city.— Wesconsin of Fraterday.

It is difficult to say whether the Scarcity, of the the trankness, which form such prominent, traits in the Wisconsin, most predominate in the above paregraph. It so happens that the memorial was brought up in the Legislature" before the meeting was held in this city, and passed the Assemhis some hours before the proceedings of the meeting reached Madison.

In the early part of the session he had introduced a memorial in favor of the Homestead Bill, but had been unable to get a report up to this time, the committee saying that they were awaiting further information. Then, delay was necessary; now it could not be had. He was in favor of the Homestead Bill, and wished to rate for an experience in the form.

Mr. Gaar spoke in favor of the reference. He too, had wished for a report on the Homestead Resolutions. He had called for a report on a week's notice, and was answered that he had no business to call for a report on so shert notice, although the resolutions had been in the house for for 6 weeks. Gentlemen had beasted long ago that they could put a land grant memorial through the casembly, but they had not dared to try it before this time, when it was too late for the people to come with remonstrances. The pill was a

intended to be introduced. The first one was not plain in its terms, as to asking for aid to particular roads; so this one was got up making the request general, the friends of the other one beasting that they would take the risk of getting Congress to make the grant for their particular roads. Why had this memorial been kept back so that no expression could be had from the people? He saw through the game, he could see through a skinner when it had as many holes as this has. Mr. Haus spoke against the reference. Nature had not given him as honest a face as Mr. Hadaley's, and he could not speak with the pathocused by him. The gendeman knows that if the citer roads get a grant, it would be an injury to Milwauke, and of course Milwaukes would oppose all others. He believed Mr. Hadley was sincere, and really dealed to kill the memorial. The reference had murder and death in it, and the movers had murder and death in it, and the movers had murder and death in it, and the movers had murder and death in it, and the movers had murder and death in it, and the movers had murder and death in it, and the movers had murder and death in it, and the movers had murder and death in it, and the movers had murder and death in the more read of some solution provided that no two subjects shall be embraced in one bill, and this provision must apply also to memorials. He says that our interest is concerned in this matter. Is this the manner in which the reverend gentleman legislates? If so, he has recovered from the verdancy of which be complained at an earlier day of the session. This is the sort of morality at work here. They say that if the land grant system is a settled policy, we may as well come in for our share. The truth is that appearances at Weshington indicate that that policy is abandoned, and this memorial is seked in order to help the spectators to revive it. Nor Su.—The Janesvillo Gazetto indulges in some sharp comments upon a letter, published in the Naw York Evening Mirror, a fortnight since, written at Wushington, and signed W. J. A. F. The letter itself denounced, in severe terms, the Wisconsin Land Grant bill, and the management of the Yalley R. R. Oompany. Altho' the initials of the signature, as well as the style and spirit of the letter, proclaim the suthorship unmistakeably, the Gractic chooses to ascribe it to us. It does so without the slightest warrant in fact.—Milwankee Sentine!

If the Janesville editor is not satisfied with the above disclaimer and desires any further.

The Janesville editor is not satisfied with the above disclaimer and desires any further. proof, we can assure him that neither Gen. King nor any one else, saw the letter before its publication, and, furthermore, that it was not written at the suggestion or instigation of any one, but was a voluntary tribute to truth and justice, and the first public exposition, in this quarter, of that bold attempt at Congressional swindling. Our Wisconsin friends may rest assured that we shall have a vigilant eye for this thieving bill, and that we are fully posted in the movements of its friends to resuscitate it. As an evidence of this, we will inform them that, on last Saturday, application was made to an officer of one of our largest city banks (in the belief that it had made advances on the worthless bonds of the V. R. R. Co.) to contribute theoney for negan lobbying the bill. When they attempt to galvanize the dead carcass, Macy, Smith & Co. shall have some more developments of their financial operations, that will forever consign the bill to the "tomb of the Capulets," and its authors to lasting infamy. The whole New York press are wide awake to this matter, and the defeat of the Assay Office appropriation, because they and the New York Members of Congress denounced this iniquity, will not have a tendency to make them minute their consideration. Let our Janesville friends make a note of this!—W. Y. Mirror. nake a note of this !-N. Y. Mirror.

THE LAND BILL.—The bill granting lands to Wisconsin for the construction of Rail Roads has been laid upon the table, and will not probably be taken up again—at the present session.

The Minnesota land bill has shared the same iste. The people have reason to rejoice in this result. —Monroe Sentinel (Dem.)

Sault and battery upon Jacobas Van Ella, on the Mr. Mrssznger, brother to defendant, asked for 20th March, was tried and the defendant found not guity. The complainant in this case has put the Co. to an enormous expense for suits of this kind, on all which he appears in the end either to have been the aggressor, or else to have been so drunk at the time as not to recollect what had taken place; and never, in any one instance have als sesertions been corroborated by either witresses. In this case he was shown to be drunk and to have been the aggressor. The fees and costs on the case will amount to upwards of ten dollars and the county will have to pay it. A long irce ago, there was an execution issued from this court againt the body of this complainant, which has not been returned. If that was now collected it would help to balance the account with th county, and and might tend to show the cou phinant, that he must not make his compising eaths with impunity; and put innocent men to the trouble and expense of procuring lawyers at witnesses to defend themselves, without the help and pay of the state, when the state furnishes pay

[From the Boston Bee.]

The Editor said, Dec. 22d: "Dr. Hoofand's colebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deserved by one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our ollow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of those Bitters, the patienteonstantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and one be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

It cures, when taken according to directions, in TWEN-TY MINUTES, leaving no Power after the Chill; very selden requiring more than ONE DOSE to make a PRIMMANNEY CURE. A great number of cases, from two to five year-saluding, have been CURED with the FIRST DOSE, and the Chill has never, as yet, returned. The leastly of this medicine is, that it stoys the Chill in TWENTY MINUTES, or less, and the patient will be entirely clear from Fever after the Chill, which is not the case when may other medicine is used. It has supersceeded all other preparations wherever it has been introduced.

Read what the Editors of the Curistille Democrat say from their own observation:

"De I rhan's medicine for the cure of chills and fever has effected some wonderful cures in our own midst. A young man who has resided for several years in Louisiana, reached New Albany a few weeks sluce, weak and emachated—likerally worn out physically, will long continued chills and fever. He made a short stay at the house of Judga Smith, where his old disease continued with no less severity that at heme in Louisiana Haring exhausted aboust every remedy known to the medical profession, he procured a box of Dr. Urban's eclebrated medicine, and after taking two powders was entirely refleved and vestored to health.
